THE BOLD LOOK
OF **KOHLER**

DISH UP *a Life You Love.*

Design has always embraced a certain level of self-expression. But unlike the days when tastemakers expressed themselves and the world adjusted, today personal style is truly at the heart of design. The objects you surround yourself with, the ideas you're passionate about, and how you want to feel in your home—these are the important details in design. Quite simply, you and your personality are the key ingredients.

At Kohler, we make it our business to help you create kitchen spaces that work for you. Whether cooking is your path to zen or takeout is your daily go-to, we have beautiful solutions to meet your needs. Our kitchen designs invite you to spend time with family and friends enjoying good food and good conversation. We're here to help you design a home that is an expression of you and the life you love.

8 PLANNING YOUR SPACE

10 DESIGNING A KITCHEN TO FIT YOUR LIFE

14 DESIGNING THE LOOK

18 DESIGNING THE EXPERIENCE

PLANNING *your space*

Designing a Kitchen to Fit Your Life

With lives that seem to grow more hectic by the day and devices that keep us always connected, our private spaces have become even more essential to our health and well-being. From planning to finished design and everything in-between, we'll show you how to make the most of your space and create the look, feel, and experience that's right for you.

10 Consider Your Space

Make the most of your space by bringing the right elements of style and function together based on your lifestyle needs.

Designing the Look

Bringing a whole room together, so each element feels a part of the plan, requires thoughtful consideration of how those components will work in conversation with one another.

14 Exploring Colors, Finishes, and Materials

Here's where you really dig into the details. What are the combinations of colors, finishes, materials, and textures that attract you? And which of these will work together to achieve your style of choice?

16 A Family Resemblance

Thinking beyond the needs of the primary workstation, we design faucet and fixture families to provide design solutions for kitchens with multiple wet spaces.

Designing the Experience

The experiences your kitchen affords are just as important as the look, if not more so. At Kohler, we design the functionality of our products to give you the right mix of ingredients to bring comfort and ease to your daily routines.

18 Trending Today

Two exciting trends are taking hold in kitchen design: mixing metals and farmhouse sinks. Designers are bringing together a range of metal tones in ways that connect small design stories throughout the larger space. And we're celebrating the comeback of the farmhouse sink—freshly designed for today's kitchens.

20 Configuring How You Work

Choosing a sink and faucet that work with you starts with understanding how you use your space and what the possibilities are—from double-bowl sinks to wall-mount faucets.

CONSIDER *your space*

Dividing the kitchen into smaller, bite-size areas will help you think through the impact of practical as well as aesthetic choices.

COOKING STATION

If you cook at all, chances are you've filled a pot for pasta or grains and struggled to carry it to the cooktop. Pot fillers make things easy, giving you stove-top accessibility and increased flow rate.

PRIMARY WORKSTATION

This is where the real prepping and cleaning happens, so functionality here is key, from touchless faucets to sink features and accessories.

PREP STATION

If you have a separate prep area, think about the types of food you typically work with here. Are you washing and chopping vegetables and fruits?

BEVERAGE STATION

Having a spot for filtered water on your primary sink, wet bar or island can give you easy access to drinking water and simplify entertaining.

CONSIDER *your space*

The Workspace Triangle

Streamline your kitchen work flow by creating a triangular pathway between your sink, stovetop, and refrigerator—so you can move easily from one to another.

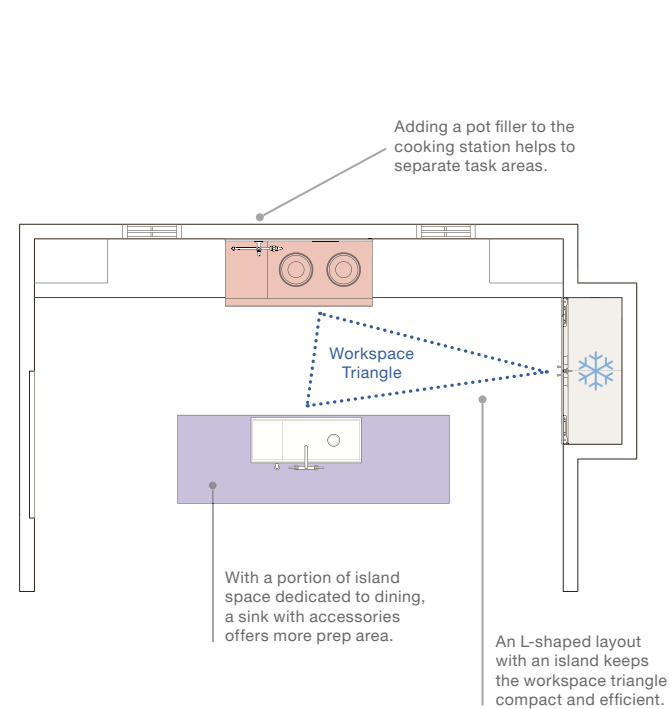

U-Shaped

Great for cooking together. Efficient triangular pathway. Ample counter areas.

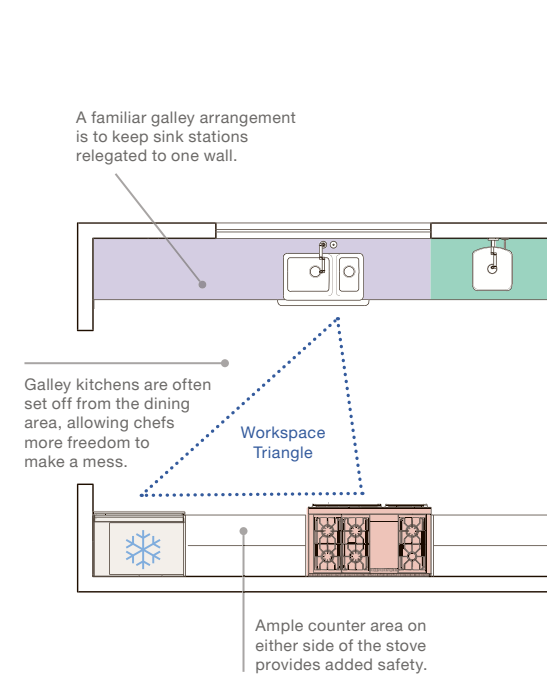

L-Shaped

Simple triangular pathway. Plenty of counter area to split prep and cleanup tasks. Comfortable for two.

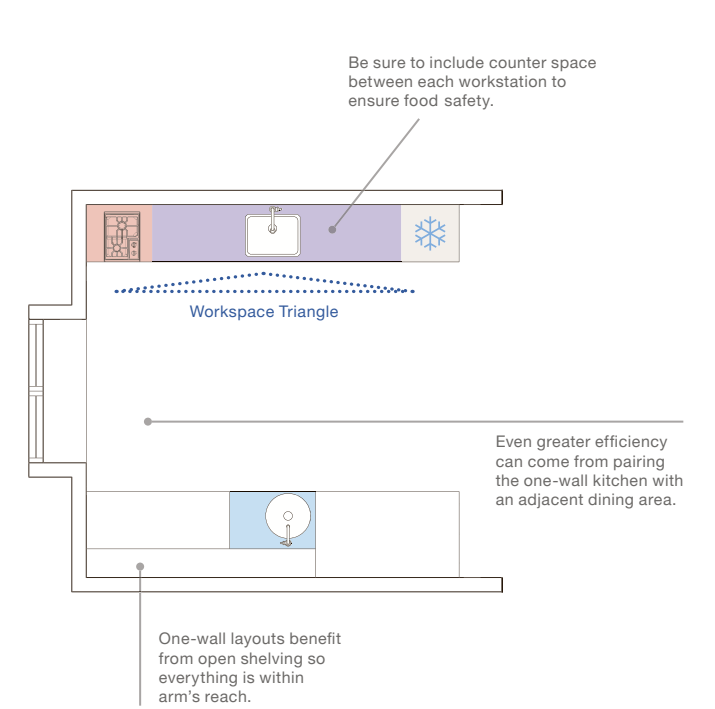

Galley

Compact triangular pathway. Great for the solo chef. Separate areas for prep and cleanup.

One-Wall

Small-space efficiency. Center sink separates prep and cooking areas. Linear layout mimics process.

Station Key

- COOKING STATION
- PRIMARY WORKSTATION
- PREP STATION
- BEVERAGE STATION

EXPLORING *colors, finishes, and materials*

Choosing your color palette should be pure joy. Begin with the colors you love, and consider how each makes you feel. Explore shades within those color families. Discover complementary tones on the color wheel. Play and be fearless.

Faucet Finishes

The finish you choose is all about the look. With more options than ever, your choice of finish can best reflect your personal style and help you realize your kitchen design vision.

Choosing a Finish

Like color, faucet finish preferences are highly personal. Perhaps the softness of brushed finishes speaks to you, or maybe you prefer the bright, clean look of chrome. Determining what tone or tones create the sensation you're after can be a fruitful place to begin thinking about the design of your kitchen.

Vibrant Stainless (VS)

Matte Black (BL)

Vibrant Brushed Moderne Brass (2MB)

Neoroc® Composite Colors

KOHLER® Neoroc composite material is designed for extreme durability and unmatched beauty. Its matte finish complements countertops and resists scratches, staining, and fading. Neoroc sinks offer high heat- and impact-resistance.

KOHLER Enameled Cast Iron

No other material offers the character and craftsmanship of KOHLER enameled cast iron. It is crafted from at least 80% recycled material and comes in an array of colors. Enameled cast iron sinks resist chipping, cracking and burning.

Dimensional Colors

Stainless Steel

Stainless steel is eminently practical and extremely versatile. It's resistant to staining and easy to clean. Our line of Preserve® stainless steel sinks features a unique scratch-resistant coating.

Choosing a Sink Color

There's no wrong answer when it comes to color choices. Consider the sink areas shown below, identical except for the sink color. Each color influences the character of the space and shifts the tone of the room.

A FAMILY *resemblance*

For homeowners who like a highly coordinated look, we've designed several faucet and sink families. Here, we've brought the earlier sketch and rendering pictured on pages 10 and 11 to life by outfitting each station—primary, prep, cook, and beverage—with faucets and sinks from two of our families.

Faucet Families

We offer a number of faucet families that let you coordinate your kitchen with primary and prep/bar faucets in a variety of handle and installation styles. In addition, Artifacts® and Graze® families feature matching pot fillers.

Sink Families

Several of our enameled cast iron and stainless steel sink lines have been expanded into families that feature multiple sizes, bowl configurations, and shapes—all with the same unique style.

TRENDING *today*

FARMHOUSE REVIVAL

The iconic look of the apron-front, or farmhouse, sink is being reinterpreted for today's kitchens, bringing character to classic and contemporary spaces alike. Install a KOHLER® farmhouse sink and leave a lasting impression.

 Read the article at ideas.KOHLER.com/Farmhouse

Clean stainless steel brings a modern sensibility to the farmhouse design. +

A shortened apron is perfect for remodeling projects. It allows for installation without having to replace the existing cabinetry. +

A Self-Trimming® apron overlaps the cabinet face, hiding the rough-cut for easy installation and beautiful results. Available on all KOHLER farmhouse sinks. +

The Tailor® farmhouse sink allows you to match the apron with your countertop or backsplash material. +

MIXING METALS

It's definitely not breaking rules today to combine metals in a single space. Bringing warm and cool metal tones together often creates a more lively, layered design.

Stainless Steel +

+ Brass

Oil-Rubbed Bronze +

Each material has its own characteristics in terms of warmth, depth, opacity, texture, and sheen. And placing it alongside other materials will accentuate particular traits. Finding a balance will help you design a room that has the right mix of intimacy and comfort.

 Read the article at ideas.KOHLER.com/MixingMetals

CONFIGURING *how you work*

The shape of your space will shape the way you work. This maxim holds true all the way from floor plan considerations to the number of bowls in your sink and the spout type of your faucet.

Spout and Spray

If you prefer a clean sink deck, consider a pull-down or pull-out faucet that provides the functionality of a sidespray incorporated into the faucet itself. A pull-down spout is great for rinsing the sink, while a pull-out gives you a larger handle for more control to rinse and fill items. A standard spout and sidespray combination offers the same functionality in a more traditional configuration.

For more information, visit [KOHLER.com/KitchenFaucetsGuide](https://www.kohler.com/KitchenFaucetsGuide)

SEMI-PROFESSIONAL SPOUT

PULL-DOWN SPOUT

PULL-OUT SPOUT

STANDARD SPOUT

Number of Bowls

Large single bowls are often preferred by the cooking enthusiast to handle oversized pots and pans. Double-equal or offset bowls help individuals who would rather have separate food prep and cleanup spaces.

SINGLE-BOWL

DOUBLE-EQUAL

OFFSET

Corner Options

We offer sinks with rounded corners for easy cleaning and sinks with tightly angled corners that afford more basin space.

For more information, visit [KOHLER.com/KitchenSinksGuide](https://www.kohler.com/KitchenSinksGuide)

Rear and Side Drains

Both rear and side drain placement, as opposed to center placement, help to clear space beneath the sink for more storage and within the sink to handle large platters and pots.

REAR DRAIN

SIDE DRAIN

+ Rounded Corners

+ Angled Corners

SINKS

With incredible quality, thoughtful design, and a range of materials and gorgeous colors, you can't go wrong with a KOHLER® sink. Our wide assortment offers a variety of sizes and configurations so you can create a functional space that will look beautiful for years to come.

SINKS GUIDE

For more information, visit
[KOHLER.com/KitchenSinksGuide](https://www.kohler.com/KitchenSinksGuide)

INSTALLATIONS

We offer multiple sink styles, each with a specific type of installation: top-mount, undermount, farmhouse, tile-in, and wall-mount. Consider your kitchen cabinet size and what kitchen sink installation type will work best with your cabinet configuration.

Top-Mount

- Easiest to install
- Often used with laminate countertops
- Sink rim extends above countertop surface

Undermount

- Mounts beneath the countertop
- Used with solid-surface, stone, and quartz countertops
- Easily sweep debris off counter and into bowl

Top-Mount/Undermount

- Allows for top-mount or undermount installation
- Can be used with all countertop styles depending on the installation method used
- Most versatile installation type
- Also known as dual-mount

Farmhouse

- Notable for its attractive front panel or apron
- Most models are available with tall and short aprons. The short-apron option lets you retrofit into cabinetry with false drawer front
- Available in enameled cast iron, stainless steel, fireclay, and Neoroc® composite material
- Available in top-mount, undermount, and tile-in models

Tile-In

- Designed for installation in a tile countertop
- Flat edge allows the installer to butt the tile up against the sink and grout the sink as if it were another tile
- Tile installs against the sink edge for a clean look similar to that of an undermount sink
- Sink edge has square, not rounded, corners

Wall-Mount

- Integrated backsplash allows sink to be mounted directly to wall with brackets
- Classic versatile design

BOWL CONFIGURATIONS

Select a bowl configuration. Are you more comfortable with a single-bowl or a double-bowl model? Do you wash dishes by hand and like a separate bowl for draining? Consider the size, shape, and configuration you'd like.

Single-Bowl

- Ideal for washing large pots and platters
- Available in a variety of sizes and materials
- Some models feature wet work surfaces for food prep

Double-Equal

- Two equal-sized bowls provide a versatile workspace
- Full range of depths including extra-deep bowls
- Smart Divide® feature lets you wash large pans while providing a dual-bowl sink

Offset

- Space and separation for washing and rinsing
- Typically one large and one medium bowl
- Models available with a full saddle or Smart Divide saddle

Bar

- Provides an additional sink and cleanup space
- Adds versatility to kitchens and other areas
- Add one to help with food prep on the kitchen island
- Complement a large primary sink with an auxiliary sink
- Use in butler's pantry, laundry room, media room, or kids' space

Utility

- Perfect for task-oriented functions outside the kitchen
- Ideal for laundry needs or as a separate station for washing vegetables from the garden
- Provides a generous workspace that is easy to clean

MATERIALS

Select a material. Would you like a choice of gorgeous hues ranging from pale to powerful? Are you interested in a subtle matte finish, or do you have your heart set on the classic look of stainless steel? We'll help you decide.

GUARANTEED
NOT TO CHIP, CRACK OR BURN
KOHLER Cast Iron
LIFETIME LIMITED WARRANTY

KOHLER® Enameled Cast Iron

Nothing else has the solid presence and statement-making look of KOHLER enameled cast iron. The rich, colorful finish makes its own bold statement as it complements your countertops and cabinetry. No other material offers the character and craftsmanship of KOHLER enameled cast iron.

STRENGTH KOHLER enameled cast iron sinks withstand whatever your family dishes out, from heavy pots to searing skillets.

STYLE Go bold with deep hues, be subtle with pale tones, or choose a color that adds dimensional character.

SOUL Made in Kohler, Wisconsin, our cast iron sinks embody over 146 years of KOHLER craftsmanship.

Neoroc® Composite

With a smooth, matte finish that works beautifully with a variety of countertops, the rich, dimensional color of Neoroc adds warmth and style.

RICH COLOR Neoroc composite sinks offer a warm matte finish designed to complement countertops with solid color throughout.

ROCK-SOLID DESIGN Exceptionally durable, Neoroc absorbs the impact of falling cookware and is scratch-, stain-, and chip-resistant. Hot pots and pans won't damage the surface.

Stainless Steel

Stainless steel is eminently practical and extremely versatile. It's resistant to staining and easy to clean. Let your style shine with more than 120 stainless steel sink shapes, sizes, and designs. It complements any kitchen and is a favorite of enthusiastic cooks and designers alike.

DURABILITY This classic, durable material lives up to its name. Hot pans won't hurt it, and it's less likely than harder materials to damage delicate dishware that may slip from your grip.

CLEANABILITY Stainless steel is rust- and stain-resistant and easy to clean; just give it a quick swipe with a sponge or cloth.

SOUND ABSORPTION Every KOHLER® stainless steel kitchen sink features SilentShield® sound-absorption technology which significantly reduces noise from clanging dishes, running water, and garbage disposals.

PRESERVE. SERIES Our line of Preserve stainless steel sinks features a unique scratch-resistant coating that offers even more protection to keep your sink looking new longer.

 KOHLER kitchen sinks are backed by a Lifetime Limited Warranty. Visit [KOHLER.com/Warranty](https://www.kohler.com/Warranty) for more details.

SINKS GUIDE

For more information, visit [KOHLER.com/KitchenSinksGuide](https://www.kohler.com/KitchenSinksGuide)

COLOR PALETTE

Select a color. Our sinks come in a wide array of colors and several finishes designed to beautifully complement your countertop and appliances. Choose from high-gloss enameled cast iron or a matte composite or choose from cool and warm stainless steel options to create a look and feel you love.

KOHLER® Enameled Cast Iron Colors

A myriad of gorgeous hues range from pale to powerful and subtle visual texture adds interest to dimensional colors.

Neoroc® Composite

A beautiful matte finish can stand out on its own or highlight your countertops.

Stainless Steel

Stainless steel can appear warm or cool depending on the finish.

OTHER CONSIDERATIONS

Make it yours. Before you make a final sink selection, there are a few additional installation and design decisions to help shape how you work in the kitchen.

Faucet Holes

- Consider the type of faucet and accessories you'd like—they'll determine the number of faucet holes you'll need
- Allow holes for soap dispenser, sidespray, and filtered water faucet

Apron Height

- Many farmhouse models are available with a short and tall apron
- Self-Trimming® installation is available on both tall- and short-apron sinks
- Short-apron farmhouse sinks provide the perfect retrofit option, allowing you to keep the existing cabinets while still providing a 9" bowl depth
- Retrofit installation only requires removing the false drawer front, making a few simple cuts to the cabinet face and sliding the sink into place

Saddle Height

- Smart Divide® kitchen sinks feature dividers that are half the height of those found in conventional double-bowl sinks
- Smart Divide saddle offers the perfect compromise by featuring the openness of a single bowl with the function of a double-bowl sink
- Models with Smart Divide accommodate large cookware that standard double-bowl sinks cannot

KITCHEN SINKS

KOHLER® ENAMELED CAST IRON

Statement-making KOHLER enameled cast iron is guaranteed not to chip, crack, or burn.* The rich, colorful finish makes its own bold statement as it complements your countertops and cabinetry.

FAUCETS

Function and style converge to form kitchen faucets as stunning as they are efficient. We offer a number of configuration, spray, and technology options so the faucet you choose will be on task with your needs and space.

FAUCETS GUIDE

For more information, visit
[KOHLER.com/KitchenFaucetsGuide](https://www.kohler.com/KitchenFaucetsGuide)

FORM

What's your faucet style? Do you need a high-arch spout to accommodate large cookware? Do you prefer to operate the faucet with a single handle or two handles? Do you want a simple yet elegant design or are you a home chef who wants the look of a professional kitchen?

Choose a pull-down or pull-out model for all-in-one function, or select a wall-mount faucet to keep the countertop clear. Many models are available in multiple sizes to pair with different sink sizes and kitchen task areas.

Pull-Down, Pull-Out, and Semi-Professional Faucets

Pull-Down

- Great range for easy prep and cleanup
- Generous spout height
- Multiple sprays
- Eliminates the need for a separate sidespray
- Touchless technology in some pull-down faucet models allows you to control your faucet with the wave of a hand, utensil, or dish so you don't have to worry about germs spreading to the rest of the kitchen

Pull-Out

- Allows for easy control over faucet and spout
- Available with multiple spray functions
- Larger section of faucet pulls away
- Eliminates the need for a separate sidespray

Semi-Professional

- Inspired by professional kitchens
- Easy-to-clean coated hose and removable coil
- Elegant designs with exceptional ergonomics

Standard Spout Faucets

Single-Handle

- Volume and temperature are controlled by a single lever
- Lever is located on the faucet or next to it

Bridge

- A new interpretation of a classic design
- Two-handled with a generous swing spout
- Many designs are available in both deck- and wall-mount models

Wall-Mount

- Reduces countertop clutter
- Makes for easy cleanup around the sink

Additional Task Area

Pot Fillers

- Inspired by professional chefs
- Installed above or next to your stovetop
- Mount to counter or wall
- Perfect for the serious home chef

Bar

- Reduced size coordinates with prep and bar sinks
- Simplifies food prep
- Makes entertaining easier

Beverage

- Dispense filtered drinking water
- Adds convenience to the kitchen

FAUCETS GUIDE

For more information, visit
[KOHLER.com/KitchenFaucetsGuide](https://www.kohler.com/KitchenFaucetsGuide)

FUNCTION

Helping you work faster and easier in the kitchen, our faucets include innovative features. Choose the functions that complement how you prep, cook, and clean in the kitchen.

The KOHLER Advantage

Innovative designs and technologies, that's the KOHLER advantage. Magnetic docking, sprayfaces that withstand mineral buildup, and effortless hose control provide functional versatility.

DockNetik

DockNetik is a magnetic docking system located within the spout that securely locks the pull-down sprayhead into place.

ProMotion

ProMotion technology combines a braided hose with a swiveling ball joint that won't kink or tangle for effortless sprayhead control.

MasterClean

The MasterClean sprayface withstands mineral buildup and wipes clean with a wet cloth.

Switch-Grip

The innovative Switch-Grip sprayhead rotates in 90-degree increments, allowing you to set the spray button exactly where you prefer it—to the left, right, front, or back. This innovation adds versatility when tackling tough kitchen tasks.

Sprays

Kohler offers one of the largest selections of faucet sprays, each designed with thoughtful technology to stay on task for years. Sprays help streamline kitchen tasks, quickly fill large pots with water, gently clean delicate fruits, and sweep dirty dishes clean.

BerrySoft

Delicate fruits deserve a gentle touch. BerrySoft is a light spray that gently rinses produce.

Sweep

Sweep your sink and dishes clean with Sweep spray's wide, powerful blade of water.

Boost

With the touch of a button, Boost technology will increase your faucet's water flow by 30 percent.

Ring

Great for everyday cleaning tasks, ring spray offers a precise and powerful flow of water.

Stream

This option provides a full, aerated stream of water that's great for quickly filling large pots.

FAUCETS GUIDE

For more information, visit
[KOHLER.com/KitchenFaucetsGuide](https://www.kohler.com/KitchenFaucetsGuide)

KOHLER KONNECT®

KOHLER® Konnect voice-enabled technology transforms your kitchen faucet into your own personal assistant. Just say the words to turn the water on, fill pots, and dispense measured pours without fear of spillage. Use the KOHLER Konnect smartphone app to control your preferences and even monitor water usage. Enjoy having the power to personalize your kitchen routine and create an experience as unique as you.

- Touchless on/off operation
- Measured volume command
- LED indicator light
- Set preferences for KOHLER Konnect
- Discover and choose preset modes
- Customize additional settings exclusive to the app
- Stay informed about your product's water usage and energy efficiency

RESPONSE® TOUCHLESS TECHNOLOGY

Response touchless technology responds to your every move to ensure that prepping, cleaning, and cooking all go more smoothly. No false activations, no interruptions from your daily routine. Simply wave a hand, utensil, or dish through the sensor window for reliable on and off operation so you don't have to worry about germs spreading to the rest of the kitchen.

- LED indicator light lets you know it's operational and ready to go
- The sensor window at the underside of the spout responds within milliseconds
- Automatically shuts off after four minutes of inactivity
- AC-powered; no need to replace batteries
- Temperature may be adjusted simply by moving the handle—no need to adjust anything beneath the counter

FAUCETS GUIDE

WATER FILTRATION

Aquifer® Water Filtration Systems

KOHLER® water filtration products effectively reduce harmful chemicals and contaminants to ensure your water is clean down to the last drop. Select a filtration or purification system that can meet your household's daily water needs and activity schedule.

- Aquifer carbon-block filter media is made out of ground coconut shells, making it more sustainable
- Aquifer+ purification system reduces bacteria, virus, lead, chlorine, and much more
- Aquifer systems are ideally suited for beverage faucets like the KOHLER Wellspring® faucet, and our Aquifer double-cartridge system is compatible with any kitchen or bathroom faucet
- Aquifer filtration systems effectively reduce harmful chemicals and contaminants, including lead, mercury, chlorine, PFOA/PFOS, pharmaceuticals, bacteria, viruses, and more

We make it easy to recycle your used cartridges. Visit [KOHLER.com/Filtration](https://www.kohler.com/Filtration) and the **Recycle Your Cartridge** section provides all the details. (Available only in the continental United States.)

FINISHES

Choose a finish that complements other metals in the room or one that makes its own bold style statement. Find a range of beautiful finishes for any kitchen design.

KOHLER Finishes

We offer one of the largest selections of faucet finishes—from warm, brushed tones to brilliant, polished hues. As tough as they are beautiful, each one resists corrosion twice as well as the industry standard.

- Vibrant® faucet finishes are created using Physical Vapor Deposition (PVD) to bond the finish and faucet together at the molecular level. This process creates an incredibly strong surface that's scratch- and tarnish-resistant.

For more information, visit [KOHLER.com/Filtration](https://www.kohler.com/Filtration)

KITCHEN FAUCETS

KOHLER KONNECT®

Reimagine your kitchen with KOHLER® Konnect smart home products, featuring built-in voice control. Simply ask your kitchen faucet to turn the water on, dispense a measured amount of water, and more. The KOHLER Konnect smartphone app allows you to customize your preferences and monitor your water usage. It turns your kitchen faucet into your very own virtual sous chef.

ACCESSORIES

Keep your kitchen extra organized and looking fresh with KOHLER® kitchen accessories. Many of our sinks have coordinating accessories custom-made to fit the sink perfectly. We also offer a wide variety of kitchen accessories that simplify your tasks and keep your sink and counter area clean and clutter-free.

ACCESSORIES GUIDE

For more information, visit
[KOHLER.com/KitchenAccessoriesGuide](https://www.kohler.com/KitchenAccessoriesGuide)

THE FINISHING TOUCH

Don't forget to outfit your sink with the right kitchen and sink accessories for easier prep and cleanup. No matter which sink you choose, our custom accessories will add another level of functionality and convenience. Choose from a wide range of sink racks, cutting boards, caddies, colanders, and more.

Kitchen Accessories

Universal kitchen accessories let you reset your kitchen experience, making cooking, entertaining, and cleanup more efficient. See how each of the thoughtfully designed products helps you speed through kitchen tasks and get back to doing what you love.

Custom Sink Accessories

Choose from a wide range of sink racks, cutting boards, caddies, colanders, and more.

- Sink racks protect the sink base
- Cutting boards add functionality
- Sinks such as Stages™, Strive®, Prolific®, and Riverby® are designed with integrated accessories
- Basic accessories are available for most sinks

Installed Sink Accessories

For added convenience, consider installing soap/lotion dispensers and sidesprays, which will influence the number of faucet holes on your sink. These accessories, as well as strainers and disposal flanges, can be finish-matched to your faucet.

Soap/Lotion Dispensers

- Use for liquid soap, dishwashing liquid, or hand lotion
- Under-the-sink container keeps countertop clear
- Available in a range of designs and finishes

Sidespray

- Pair a sidespray with a standard-spout faucet for a convenient way to rinse dishes and clean the sink
- Available in a range of finishes

Strainers and Disposal Flanges

- Available in a variety of finishes to coordinate with your faucet
- Easy to install

Hole Covers

- Cover unused faucet hole drillings on your sink

Bar Sink Faucet

A faucet designed and scaled specifically for use with a secondary or bar sink. These faucets frequently have a coordinating full-size kitchen sink faucet counterpart.

Bar Sink

A sink designed for a family room or entertainment area. Bar sinks may also be paired with kitchen sinks for food prep or cleanup.

BerrySoft® Spray

A gentle spray designed to wash fruits and vegetables.

Pot Filler

A wall- or deck-mount faucet, installed next to or above a stove, designed for filling pots.

ProMotion® Technology

A braided hose and swiveling ball joint that prevent tangling and offer smooth operation of the faucet sprayhead.

Pull-Down Faucet

A faucet with a sprayhead that pulls down and typically features multiple spray options.

Beverage Faucet

A faucet that dispenses filtered drinking water.

Boost Technology

Quickly boosts water flow with the touch of a button for filling pots and containers fast.

Bowl Configuration

The size and depth relationship between bowls in a double- or triple-bowl sink; for example, large/medium, high/low or double-equal.

Pull-Out Faucet

A faucet with a multifunction sprayhead that pulls out for rinsing and spraying. Pull-out faucets feature a larger grip area than pull-down faucets.

PVD

An abbreviation of physical vapor deposition, the method used to bond Vibrant® finishes to the faucet body.

Ring Spray

A precise and powerful flow of water made for everyday cleaning tasks.

Bowl Count

The number of bowls in a sink.

Bridge Faucet

A two-handle faucet in which the handles and spout are connected by a “bridge,” similar to faucet styles in the early days of plumbing.

Deck-Mount

A faucet installation style. A deck-mount faucet can be mounted on a sink or on the countertop behind it.

Self-Trimming®

A feature of select farmhouse sinks that lets you install a farmhouse sink with most conventional cabinetry and minimal trim work.

Sidespray

A small spray nozzle, completely separate from the faucet, with a pull-out hose.

Single-Handle Faucet

A faucet that has a one-lever control for volume and temperature. The control may be attached to the spout or it may stand apart.

Deck Plate

An ornamental plate used to cover the extra holes when installing a single-hole faucet on a three-hole sink.

Dock&Netik®

A magnetic docking system on KOHLER® pull-down and semi-professional faucets that securely holds the sprayhead in place.

Double-Equal

A sink configuration with two bowls of identical size and shape.

Sink Accessory

An accessory available for sinks, including cutting boards and sink racks.

Smart Divide®

A two-bowl sink design developed by Kohler that features a low divider between the bowls to better accommodate pots and pans.

Stream

A standard aerated faucet stream designed to fill large pots and vases quickly.

Farmhouse Sink

A style of sink with an exposed front panel. Farmhouse sinks are available in enameled cast iron, Neoroc® composite material, stainless steel, and fireclay models.

Faucet Accessory

An accessory designed to complement faucets in style and functionality, including soap/lotion dispensers and sidesprays.

Faucet Family

Coordinating faucets, such as a kitchen sink faucet and bar sink faucet, in the same design.

Sweep®

A forceful spray with specially angled nozzles creating a blade of water that sweeps food debris from plates and the sink’s surface.

Switch-Grip™ Sprayhead

Available exclusively on the Graze® semi-professional kitchen sink faucet, the Switch-Grip sprayhead rotates in 90-degree increments, so you can position the control buttons in the direction you prefer.

Top-Mount

A sink installation style in which the sink rim rests on the countertop surface. Top-mount sinks are often paired with laminate counters.

Faucet Hole

Predrilled holes on a sink for faucet installation and for the installation of additional items, such as a sidespray, soap/lotion dispenser, or beverage faucet. Before choosing a sink and faucet, be sure the number of holes on the sink matches what you need.

KOHLER® Enameled Cast Iron

A material made in part with recycled iron that is poured into castings, cooled, covered with a powdered glass mixture, and fired to a smooth, glossy finish.

MasterClean™

An easy-to-clean silicone sprayface that withstands mineral buildup.

Two-Handle Faucet

A faucet with two separate controls: one for hot water and one for cold.

Undermount

A sink installation style in which the sink mounts beneath the counter and is typically used with solid-surface countertop materials.

Undermount Sink Kit

An installation kit for KOHLER® undermount sinks that eliminates the need to build a wood frame or drill into the countertop.

Multifunction Sprayhead

A sprayhead that combines multiple sprays or functions.

Neoroc Composite Material

Kitchen sinks made of Neoroc composite material are exceptionally durable with a warm, matte finish that complements natural countertops.

Offset

A sink with two bowls of different size, depth, and/or shape.

Undertone Preserve® Sinks

Stainless steel sinks that feature a scratch-resistant top coat that protects the sink from everyday wear and tear.

Wall-Mount

A faucet installation style in which the faucet mounts to the wall instead of to the sink or counter.
